Summary

I am a technology enthusiast, a fast learner and I have a never ending quest to learn new things everyday.

I work well with people and I pay great attention to details.

I am a full stack developer and a graphics designer.

I am currently researching on Machine learning, Blockchain technology and the Internet of Things.

I have been programming for about 3 years, during which i have developed projects which are available on my GitHub account below.

Experience

Intern

Utility Ware

Mar 2021 - Sep 2021 (7 months)

I worked on internal projects for the company,

Contributed to the frontend of their upcoming internship dedicated website with my team,

I lead a sub-team to simulate an application store and its console similar to play store.
